

CONFIDENTIAL CLAIM RETRACTED

DATE: 5/16/13 AUTHORIZED BY: SL

11/COUNCIL MEETING #48

OCTOBER 1, 1985

ITEM NUMBER FOUR: BLASTING DAMAGE STUDY

Mr. Roland Johnson was present for this report.

Mr. Johnson presented the following information to the Council:

- This study is still ongoing at this time. By the middle of December, an administrative report will be submitted. The final report will come out in April of next year.
- Mr. Kenneth King of U.S.G.S. is the person doing this study.
- Preliminary indications show the following:
 1. The blasting damage is not random. The damages follow a definite pattern.
 2. The blasting done during the study shows that the shock waves do in fact reach the Village of Paguate. More blasting will be done to further study the blasting shock waves.
- The information received from this study could be submitted to the DEIS Panel.
- The main emphasis behind this study is to show Anaconda that the blasting done during the mining operations did damage the homes at Paguate.
- Mr. King will be back at the mine site/Paguate area during the latter part of this month.
- It is possible that monitoring can be done at other communities.

MISCELLANEOUS:

1. The Council approved of Resolution No. 48-85. This resolution iterates the decisions reached by the Council on the County Commission issue. Councilmen Lawrence Garcia and Harvey Garcia signed the resolution along with
